

Wa3525 20v lithium battery

100-430KWH

230|400V

Overview

What is a wa3525 power share battery?

This WA3525 2.0Ah 20V Power Share battery makes a great addition to any existing Worx cordless tool collection. Extra batteries are always nice to have. It's also an excellent way to start a tool collection with a cordless Worx tool that doesn't come with a battery.

What is a 20v maxlithium battery?

Lightweight to help keep your work fatigue-free. The only system that powers 75+ 20V, 40V, and 80V products with the same batteries. The 20V MaxLithium 2.0 Ah Battery delivers long-lasting performance without self-discharge or memory effect. Great for extending your tool battery life!

What is a 20v WRX battery?

The amp hour rating measures how much energy can be stored in the battery (energy capacity). The 20V Worx 2.0Ah battery gives you the power to care for the average 1/4 acre yard. The 20V Worx 4.0 Ah battery (WA3578) can hold twice the amount of energy and can provide up to double the run time.

What kind of battery does a 20V power share & 18V tool use?

20V Power Share & 18V MaxLithium 2.0 Ah Battery (WA3525) Powerful 2.0Ah battery charges quickly to run your 20V/18V tool. MaxLithium technology means more efficiency and no memory effect. Lightweight to help keep your work fatigue-free. You're not just buying a battery for one tool, but for every power & garden tool on the Power Share platform.

Can you use a 20v battery with a 32V battery?

While Power Share allows you to share batteries between tools within the same voltage family, batteries should only be used with tools of a corresponding voltage. Use your 20V Max Lithium battery with any 20V Worx tool - even the power tools - but save your 32V battery for your 32V tools. Are

lithium batteries interchangeable with the Ni-Cad?

.

What is the best lithium battery for a Worx tool?

The 2.0 amp hour WA3525 lithium technology charges quickly and powers your cordless WORX tool through the entire job, without waning or draining. Max lithium batteries are lighter, more efficient, and charge with no memory effect. Great extra battery to have for the 18-volt or 20-volt WORX lithium tools.
