

What are the specifications of the photovoltaic energy storage cabinet

Overview

What is a commercial solar battery storage system?

The commercial solar battery storage system is loaded with cell modules, PCS, photovoltaic controller (MPPT) (optional), EMS management system, fire protection system, temperature control system and monitoring system. The system configuration is modular, support multi-machine parallel, plug and play, easy to install and maintenance.

How many redundancy does a battery cabinet have?

1+1 redundancy. The battery cabinet has 2*50KWH (51.2kwh) battery outdoor cabinet ESS solution (KAC50DP-BC100DE) is designed for small to medium size of C&I energy storage and microgrid applications. Max.

How many AC outdoor cabinets can be connected at the same time?

Max. PV input voltage Max. PV input current Max. THD of current *: This transformer can be optional for non-off-grid use scenarios. **: Choose whether to connect to the N line according to the site situation. ***: Each AC outdoor cabinet can support up to two battery outdoor cabinets connected at the same time. The product can be expanded to Max.
