Overview

What is MGE UPS?

MGE UPS Systems, manufactured by Schneider Electric, offer 3 Phase UPS power protection, solving today's energy challenges while setting the standard for quality and innovation with fully integrated solutions for enterprise-wide networks, data centers, mission-critical systems, and industrial/manufacturing processes.

What is MGE 3P ups?

With three-phase power protection ranging from 10kVA to over 1MW, the MGE product family offers ease of use features such as front-access doors and a large, user-friendly display. MGE 3P UPS equipment is well-suited for facility and industrial applications in addition to data center installations.

What is the MGE EPs 7000 3 phase UPS power protection?

The MGE EPS 7000 3-phase UPS power protection is specifically designed to meet the requirements of medium to large data centers, buildings and mission critical environments. The MGE EPS 7000 is the facility manager's top choice UPS with its full front access design and all critical serviceable components reachable within minutes not hours.

What is MGE power protection?

MGE manufactured by Schneider Electric offers 3 Phase UPS power protection, solving today's energy challenges while setting the standard for quality and innovation with fully integrated solutions for enterprise-wide networks, data centers, mission-critical systems, and industrial/manufacturing processes.

What auxiliary equipment does MGE EPs 7000 offer?

MGE EPS 7000 provides pure flexibility, with auxiliary equipment such as: paralleling gear, external maintenance bypass, critical bus synchronization, bottom entry cabinets boxes, and distribution to meet specific site

configuration while maximizing efficiency and output power quality. The EPS 7000 is available with optional Lithium-Ion Batteries.

What is MGE EPs 7000?

MGE EPS 7000 was the first in the industry to incorporate a 100% rated static switch on output of UPS inverter with no mechanical contactors that can age and weaken during UPS operation. Energy efficiency is a key feature for the MGE EPS 7000 with 93.5% system efficiency at full load and continues at high efficiency levels down to 25% load (93%).
