## Overview

---

What is Xinya Electronics?

Xinya electronics co.,ltd is a group of professional connector and radiator providers.

Who is Xinya Dongfang?

Xinya Dongfang is a professional EV Charger leading manufacturer that integrates the key circuit design, software development and platform application of charging station. As a technology-leading company, Xinya Dongfang has always been committed to the research development production, sales and operation of charging station for electric vehicles.

How big is Xinya Dongfang factory?

The factory covers an area of 150,000 square meters. Building area of 400,000 square meters. Xinya Dongfang is a professional EV Charger leading manufacturer that integrates the key circuit design, software development and platform application of charging station.

Who are Yueqing Lixin & Xinya Oriental?

Yueqing Lixin Holding Co., Ltd. and XINYA DONGFANG ELECTRICITY TECHNOLOGY O.LTD. were established Xinya Oriental changed from Xinya electronics holdings to Yueqing Lixin Holdings Establish Guangdong haoya Jintian New Energy Investment Co., Ltd. (responsible for operation in South China).

Which inverter companies have the best performance in 2023?

Most of the major inverter companies won a large amount of orders and expanded their capacity with high shipment volume. Sungrow and Huawei tied for first place in the list with outstanding performance. Sungrow achieved revenue of 27.65 billion yuan in 2023, up 61% year on year, and net profit of 9.4 billion yuan, with shipments of 130 GW.

Can a switching converter be used to control PV power?

If a switching converter is used to process the PV power, the duty-cycle can be used to control PV voltage or current . Islanding: a continuous operation of an inverter (or other generator) connected to the utility grid when the latter is disconnected.
